Leadership • Attention to detail • Autonomy • Works under pressure • Team player

NGUIMDO KENFACK JELF

Full-Stack Developer | Microservices Architect & AI Engineer

PROFILE

Passionate Full-Stack Developer, currently pursuing a **Master's II in Artificial Intelligence**, specialized in building web & mobile applications and **microservices architectures**. Founder of the startup **Unitechs**, I have designed and shipped numerous client platforms, from logistics to e-commerce, integrating Machine Learning solutions. I am looking for ambitious projects that combine technical excellence, scalability and business impact.

PROFESSIONAL EXPERIENCE

- Founder & Full-Stack Developer**2023 – Present
Unitechs (Startup) – Dschang / Remote
 - Founded and lead a software development startup: product strategy, technical architecture and client relations.
 - Build full-stack web & mobile applications and **microservices architectures** (REST APIs, Docker, CI/CD).
 - Integrate **Artificial Intelligence / Machine Learning** solutions into production-grade products.
- Full-Stack Developer Intern**Jul – Oct 2024
Soft Ai Group – Dschang
 - Developed push notification modules and an urban carpooling simulator.
 - Performed functional testing and validation to ensure application quality.
- Software Developer & Graphic Designer**2022 – 2024
Growing Care Help (GROCH)

Management software for consultations, accounting and patient records; visual assets and video editing.
- Graphic Designer**2021 – 2022
LeoTechs Academy

Design of visual assets (flyers, posters, banners, roll-ups) and video editing.

SELECTED PROJECTS

- izyschool.app** AI-powered study assistant (PDF analysis, auto-generated quizzes/flashcards, 24/7 AI tutor).
● Next.js • Mistral AI (LLM/RAG) • TypeScript
- Notre Cargo** Logistics management & tracking platform (containers, parcels, customs, transactions).
● React • TypeScript • Vite
- EduDataCam** Recommendation platform for university programs in Cameroon.
● React • Spring Boot • PostgreSQL
